

While our competition searches for the Holy Grail...

Our industry has coined the term "holy grail" for a telemark binding which, by our account, has become an elusive, complicated, telemark contraption.

The new Voile Switchback and Voile SX telemark bindings deliver elegant simplicity, light weight, innovative functionality, power and reliability.

Stop searching and get back to Voile.

Made in the USA, Salt Lake City, Utah.

Voilé is making better telemark bindings now!

Win a pair of Switchback or SX bindings. To enter, leave a comment at the Holy Grail post at the Blogcountry link on our website, voile-usa.com
